BULLETIN #880

RE: Revised Export List

Attached is the California Department of Insurance ("DOI") [Bulletin No. 99-4](#) regarding the Commissioner's Export List. The new list became effective December 20, 1999 and is the result of materials and testimony provided to the DOI at the November 30, 1999 Export List hearing held in San Francisco. Export List items are exempt from SL-2 (Diligent Search Report) requirements under Section 1763 because the Commissioner determined that there is not a reasonable or adequate market among admitted insurers for these insurance coverages.

The revised Export List contains the following two additions, 1) Aviation Excess Liability, and 2) Fairs Concessionaires and Vendors Including Liquor Liability. The revised List also changes the item "Demolition" under the general liability category to "Demolition Contractors".

Also attached is the [Commissioner's Export List](#) with the SLA Export List Codes for each insurance coverage. When completing the Confidential Report of Surplus Line Placement (SL-1 form), show the Export Code in lieu of the coverage code under Section 2, Risk Description, item (E).

Sincerely,

Theodore M. Pierce
Executive Director
