BULLETIN #1376

RE: CALIFORNIA DEPARTMENT OF INSURANCE ISSUES NOTICE ON MOVE TO SIRCON'S ENHANCED ONLINE SERVICES AND NEW CHECK LICENSE APPLICATION STATUS SERVICE (CLASS)

The California Department of Insurance (CDI) issued a notice on July 11 regarding the changes to their online services. Their licensing and education provider services will be moving to Sircon, powered by Vertafore, and will be launching a new Check License Application Status Service (CLASS). The transition will take place on **Monday, August 19, 2019**.

The CDI's current online services such as Fast Licensing Application Service (FLASH), license renewal service, and Education Providers Online Programs (EPOP) will no longer be available after 3:00 p.m. on August 8th in order to allow time for the CDI to transfer the data from their current online services to Sircon.

The notices contain information on the following enhancements:

Licensing

- Improved license application and license renewals for individuals and business entities
- Improved license records and notifications
- Ability to submit background statements online
- Enable applicants to check status of application and ability to attach required documents

Education Provider

- Faster online options to submit course applications, renewals, completions and offerings
- Ability to upload multiple course offerings
- Input and modify course schedules and course status

Please note that the CDI will continue to accept paper license renewals, business entity endorsements/terminations, and course approval applications.

For more information on the services that will be available, fee information, and roll-out period, please view the notices by clicking on the links below:
