Re: Commissioner Adds Standalone, Private, Primary Flood to Export List

Insurance Commissioner Ricardo Lara announced Monday that he has decided, following the Export List hearing held on June 24, 2026, to add the following two coverages to the Export List:

- Standalone, Private, Primary Flood—Personal
- Standalone, Private, Primary Flood—Commercial

The criteria for deciding to add a coverage to the Export List include determinations that the type of coverage does not have an adequate market among admitted carriers or that a particular insurance product is a new, innovative product for which an admitted market has not had time to develop. The California Department of Insurance (CDI) holds a hearing at least once annually to consider requests for adding coverages to, or deleting coverages from, the Export List.
